¹⁾ For the products Semi-Private and Private, choose from a cost contribution of CHF 1,000, 3,000, or 5,000 per year.

As soon as your cost contribution has been used up, we assume full costs (after deduction of excess and deductible in the basic insurance policy). The cost contribution applies to inpatient stays in hospital, births in hospital, planned treatments abroad, and stays in rehabilitation clinics or psychiatric clinics.

²⁾ For the products Flex 1 and Flex 2, choose in advance how you want to be insured every time you go into hospital.

You contribute a percentage of the costs of each hospital invoice in the private and semi-private ward. Once your total contribution has been used up, we assume full costs (after deduction of excess and deductible in the basic insurance policy). If, prior to a hospital stay, no semi-private or private ward is selected, a general ward will apply. This means: no cost participation, a free choice of hospital throughout Switzerland, but no free choice of doctor.
