Interface to more efficiency in administration

With pensionLink you can reduce your company's administrative costs consistently and long-term. Invest in the powerful interface with this free service from AXA still today.

Advantages

- Direct transmission of staff changes within your occupational benefits plan from your ERP application
- Detailed preparation of contributions and benefits based on your requirements
- Automatic data import into your current administrative environment

Conditions

■ Initial costs

The pensionLink application is designed for companies with frequent staff changes. Use of the interface itself is free of charge, but it requires an initial investment. The amount depends on the desired level of automation.

■ System changes

Needs analyses and planning are carried out jointly with AXA's specialists, who are also available during the implementation phase to answer any technical questions.

■ Data

In order to fully automate processing, it is necessary to have a complete personnel database. It may also be necessary to enter still missing information (e.g. pension plan or person categories) in your ERP application.

Interested?

Why not call today still and ask for an appointment with one of AXA's specialists.
