There are many types of insurance. But what matters to us is that we work **together** with you to find the solution that is best for you. This is why we are always glad to advise you **in person**.

Driving made worry-free

Gas, hybrid or electric motor?

When you buy a car, you need motor vehicle insurance. We have a range of attractive solutions for you to choose from that are precisely in line with your wishes and your budget.

Liability insurance covers damage you cause to other people or property with your insured vehicle and is mandatory for registering your vehicle in accordance with the Road Traffic Act. That's because traffic accidents can become very expensive very quickly – especially if people are injured.

Accidental damage insurance covers damage to your vehicle. You choose between partial accidental damage (damage to your vehicle caused by natural hazards, animals and unknown persons) and comprehensive accidental damage (including damage caused by you to your vehicle).

Additional coverage

Damage to parked vehicle:

You return from your shopping and discover deep scratches and a new dent in the passenger door. With parking damage insurance (damage to a parked vehicle), this type of damage is also covered.

Roadside assistance including onward travel: Roadside assistance including onward travel (Switzerland/Europe) ensures that you stay mobile if your insured vehicle breaks down.

We organize and pay for roadside assistance as well as the direct journey home or the continuation of your journey.

Bonus protection:

Avoid having your insurance premium go up after an accident because your no claims level drops.

Gross negligence:

Benefits are not reduced for damage caused by gross negligence (such as driving through a red light).

Vehicle legal protection

With this add-on, our experts will give you legal advice on the next steps and assist you if there are any disputes involving your vehicle, such as enforcing your claim following a car accident or contesting the excessive bill you've received from your car repair shop.

With the Safe Driver Bonus, young drivers under the age of 26 receive a 15% discount on their AXA car insurance if they take part in a prevention program on safe driving, among other measures.

Add-ons for electric vehicles:

Regardless of whether you have damaged your home or mobile charging station due to improper use, or it has been vandalized or stolen, AXA will pay for an equivalent replacement including installation within the scope of the **charging station add-on**. With the battery add-on, you cover damage to your high-voltage battery caused by operating errors, power surges, overcurrent, total discharge, malfunctioning of the charging device or exceptional loss of capacity.

Expand your insurance coverage with our flexible add-ons – precisely in line with your needs.

As with car insurance, you can put together your own motorcycle and motor scooter insurance protection based on your exact needs.

Liability insurance covers damage you cause to other people or property with your insured motorcycle or motor scooter and is mandatory for registering your motorcycle or motor scooter in accordance with the Road Traffic Act. That's because traffic accidents can become very expensive very quickly – especially if people are injured.

Accidental damage insurance covers damage to your motorcycle or motor scooter. You choose between partial accidental damage (damage to your motorcycle or motor scooter caused by natural hazards, animals and unknown persons) and comprehensive accidental damage (including damage caused by you to your motorcycle or motor scooter).

Additional coverage

Damage to parked motorcycle or motor scooter
You return from your lunch break and discover a deep scratch on the fuel tank. Your motorcycle or motor scooter is just a few months old – which makes it all the worse. With parking damage insurance (damage to a parked vehicle), this type of damage is also covered.

Roadside assistance including onward travel (Switzerland / Europe) ensures that you stay mobile if your insured motorcycle breaks down. We organize and pay for roadside assistance as well as the direct journey home or the continuation of your journey.

With the motorcycle clothing add-on, your motorcycle clothing (including helmet, boots, etc.) is insured if it is stolen or damaged in an accident.

You can expand your insurance coverage with our add-ons for motorcycles or motor scooters – precisely in line with your needs.

Claim scenario
After a motorcycle trip, Igor takes a break at a service station. On returning to the parking lot, he finds a nasty surprise: The locked storage box has been broken into – and his motorcycle helmet and expensive leather jacket have both been stolen.

Breakdown of costs

Accidental damage		
Damage to storage box	CHF	250
Theft of motorcycle helmet	CHF	359
Theft of leather jacket	CHF	899
<hr/>		
Claim total	CHF	1,508
Deductible	CHF	0
Compensation from AXA	CHF	1,508

Rev up your coverage

Riding the streets on a motorcycle gives you a heightened sense of the powerful machine under you. And even on a motor scooter, you are much more attuned to your environment than in a car. You do your part by driving with skill and caution. Coverage and protection – that's up to us.

Coverage for your classic car

Do you love cars and motorcycles that have been around a while and have their own stories to tell? We share your passion. So you can count on us to provide you with first-class protection for your pride and joy.

Your antique automobile is unique, and so is our insurance solution. Thanks to our modular and flexible options, you can optimally tailor the insurance coverage to your vintage car and your needs.

Classic car comprehensive protection is automatically included when you take out accidental damage insurance. It includes: Insurance services for replacement and individual parts, for transportation damage, as well as an increase in coverage if your vintage car grows in value.

With our **Operating damage add-on**, you are optimally covered in the event of damage caused by incorrect gear changes, misfueling, overheating and material fractures. Or in the event of subsequent damage caused by fluid leaks (oil, water, fuel, etc.).

Arrange your appointment with an AXA advisor today to discuss the options that provide the best coverage for your beloved vehicle.

Cruising in the saddle

Many bicycle and moped riders don't give a second thought to insurance. But there are several issues they need to consider.

Mopeds are all the rage, and the e-bike boom is still going strong. But the traditional bicycle is still our favorite two-wheeler. Almost every second person in Switzerland rides their bike or moped on a regular basis. But sadly, the risks are often underestimated. Do you know how you and your two-wheeler are insured?

Good to know
Personal liability insurance protects you against claims from third parties. And it makes no difference if you are riding your own or someone else's bicycle, e-bike or moped (up to 25 km/hr).

The basics

Liability insurance for bicycles, e-bikes and mopeds (up to 25 km/h) is voluntary. If you already have personal liability insurance, coverage for bicycles, e-bikes and mopeds (up to 25 km/h) is included automatically.

For mopeds and e-bikes (up to 45 km/hr), separate liability insurance is required, e.g. via the dealer. You will need to submit a certificate of insurance to the department of motor vehicles to get a license plate.

To cover damage to your bike or moped, you can take out the Bicycles, e-bikes and sports equipment module in combination with household contents insurance. This provides all-round protection against theft, a fall or vandalism, including when you are on the go.

Above the clouds

You've realized your dream of flying – now we'll take care of your safety.

Whether you pilot, own or keep an aircraft, our aviation insurance will cover your aircraft not only while it is in use but also when it is laid up.

As a pilot, you are liable to third parties for any loss that occurs in the air or on the ground. You are also responsible for your passengers and can be held liable if something unforeseen happens.

Combined third-party and passenger liability insurance offers you comprehensive protection against liability claims.

Comprehensive accidental damage insurance covers damage to the aircraft. Accidental damage insurance for aircraft that are in storage only covers damage that occurs while the aircraft is on the ground.

The **insurance covers** keepers and owners of aircraft, crew members and air freight carriers, as well as persons responsible on their behalf.

Accident and passenger insurance can be taken out for passengers and crew members – the same as for motor vehicle insurance. We then pay the medical expenses or a disability lump sum or death lump sum.

Good to know

As the owner of an aircraft owned privately or by a club, you are liable for any losses. First clarify if the aircraft has accidental damage insurance and if there are club bylaws that regulate the deductible in the event of a claim.
